

Q. Tell me about yourself?

Good morning Sir/Mam

Brief Introduction

Hello myself Subrat, and I am currently a final year student at IIIT Lucknow pursuing my bachelors in Information Technology.

Achievements

I have a deep interest in web Development and also i have developed many projects using MERN stack, in which there are two major projects and some minor projects. I also have a strong hold on my data structure and algorithmic part. I have participated in more than 60 Leetcode contests where I have achieved ranks under 1000 among more than 20000 students many times, I have a knight badge on my leetcode profile which is awarded to the top 5% coders on leetcode. I am ranked among the top 10 coders of my college on GFG. I have also made some contribution to open source while participating in hacktoberfest.

Skill jobs fitting reason to join (Frontend)

I always wanted to make digital stuff that not only looks good but also works smoothly. So, I've been working hard to get better at it. I want to create websites and web apps that people find easy to use and enjoy using.

(Backend)

I was drawn to the backend role because I'm passionate about the "behind-the-scenes" of web development. I love working on the server-side of things, where I can make sure data is managed efficiently and applications run smoothly. My focus is on creating robust and reliable systems that power websites and web apps. I believe that a strong backend is the foundation for a great user experience

(SDE)

I'm into software engineering because I like making computer programs and apps. My goal is to create software that's easy to use and helps people. Also I am a quick learner and can align to new technologies in very less time.

Q. Why should we hire you?

As a recent graduate, I come with a fresh perspective and a strong desire to learn and grow. I'm excited about the opportunity to apply the knowledge and skills I've gained during my education to contribute to the success of your company. I will assure you that if you choose to hire me, I will commit my best to the role and give it my absolute best effort.

Q. Strength and weakness ?

My strength is I am a self-motivated person and a quick learner and also I do my work sincerely. My weakness is I am so emotional person if anyone asks for help I am always ready and give my 100% effort

Q. Why do you want to work with our company ?

I think starting my career as a fresher in your reputed company would provide a great opportunity with a positive working culture and environment well-known among my seniors, I believe I'll have the chance to enhance my skills for both personal and professional growth.

Q. Can you work under pressure ?

Yes, of course, as you know there is a lot of work we have to do during the 4 years of our engineering like submissions, exams, practicals and projects. We have completed all this work under too much pressure but we have done all things on time. So, I have good experience of doing work under pressure, so I can do work under high pressure also.

Q. Are you willing to relocate ?

As a fresher, entering the IT field, I am open to relocation for the right career opportunity. I think being open to relocating can help me discover exciting chances, learn new things, and meet more people in my field. I'm really excited about the possibility of growing both personally and professionally through relocation.

Q. What are your goals ?

My long-term goals are related to my development in the upcoming years. I want to see myself taking on bigger responsibilities. Bigger responsibilities mature your decision-making. I understand this can take some time but I am ready to work for the company.

Q. Where do you see yourself in 5 years ?

In the next 5 years, I would like to have maximum knowledge in each and every department of our organisation and I see myself as an integral part of the company who has helped contribute to the growth and success of the organisation and I want to change the level of my family into the next and I see myself in a successful person in society.

Q. Do you have any questions for me ?

First of all thank you for your concern, yes I have a question for you. I would like to know the working environment of the company and your feedback about my interview.
